

Safety Statement

We will stick to the official emergency procedures, e.g. in case of a fire we'll calmly proceed to the nearest exit and go to the designated meetup area. We'll update our members on all events and activities we have and will ensure that meet ups or trips will be suitably planned out prior in order for everyone to be safe and healthy. We will make sure all safety equipment necessary will be used for any activities planned. If we have any questions or major decisions to make, we'll seek guidance from the relevant offices or lecturers.
